REMARKS

This response is intended as a full and complete response to the Communication dated September 30, 2003. Applicants provide a complete listing of all claims now pending in the application. The claims above are presented as they were presented in the Response filed July 18, 2003, with the exception that a new status identifier for claim 23 has been provided. Apparently, Applicants' previous representative addressed the §112, second paragraph rejection against claims 6, 23, and 101 by providing support in Applicants' specification for the term "reflective". Responsive to the Examiner, it is Applicants' position that the term "reflective" is not vague and indefinite in view of Applicants' specification. Thus, Applicants did not amend claims 6, 23, and 101. Namely, Applicants' statement in page 22 of the previous Response filed on July 18, 2003 was an error and the proper status identifier for claim 23 should be "(original)".

Thus, Applicants believe that the Response filed July 18, 2003 is now complete, and that claims now pending are in condition for allowance. In view of the amendments and the following discussion, the Applicants believe that all claims are in allowable form.

DRAWINGS

The Office Communication dated September 30, 2003 indicates that Applicants failed to correct the drawings appropriately. Applicants point out that the Examiner's Office Action dated March 25, 2003 indicated that the Drawings filed on January 13, 2002 were accepted by the Examiner. Therefore, no corrections to the drawings were deemed necessary.

CONCLUSION

Thus, the Applicants submit that all claims now pending are in condition for allowance. Accordingly, both reconsideration of this application and its swift passage to issuance are earnestly solicited.
